

## **Important Message about Littering**

Littering is absolutely prohibited. Park visitors found littering will be ejected immediately. The volume of litter that has been found at DeKorte Park and River Barge Park recently is unacceptable and will not be tolerated. Litter is not only unsightly and unsanitary but extremely harmful to wildlife and the environment. If this very basic rule is not respected, NJSEA will consider appropriate action including referral to the appropriate authorities for the imposition of fines or closing the parks for the protection of nature and our own employees.
